

Net Washer

《6-roller model》

NEW!

Made of all stainless steel

■ Features ■

1. The body is made of all stainless steel offering excellent durability.
2. The rotary nozzle system eliminates risks of cracks caused by conventional rubber nozzles.
3. The simplified structure makes maintenance and inspections easy.
4. All driving parts are equipped with one-touch covers, and an emergency stop switch is installed at the exit for safety.
5. The main body is of a closed structure, allowing virtually no scattering of water or biofouling debris.
