From Hakodate to the world ~ aiming to provide an ocean-friendly work environment~

Towa Denki Seisakusho, Inc.

 HAMADE

105E

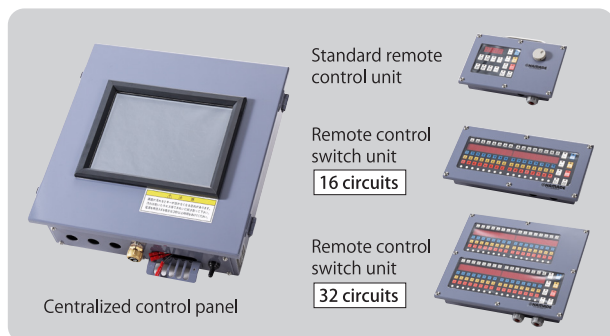

MY-8

It is a simple fishing machine with its focus firmly on functionality.

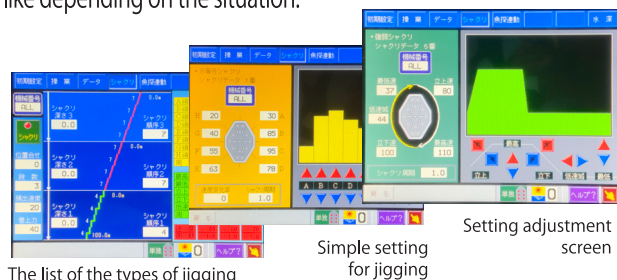

It is equipped with our popular crystal control panel.

The control panel can monitor up to 64 fishing machines in addition to being capable of self-diagnosing the system in a short amount of time.

New You can enjoy diverse types of jigging

There are many ways of jigging and, with this new machine that allows multiple settings, you can enjoy fishing squids the way you like depending on the situation.

The list of the types of jigging

Simple setting for jigging

Setting adjustment screen

Fish finder function

The popular fish finder function is embedded in the main microcontroller unit.

The display is multilingual.

The centralized control panel will be a LCD touch panel, and the display languages will include Chinese, Korean and English.

Help (icon)

When you can't figure out how to use the panel, you can just touch "Help" on the screen and then the answer will be displayed.

New A panel with a display surface with icons

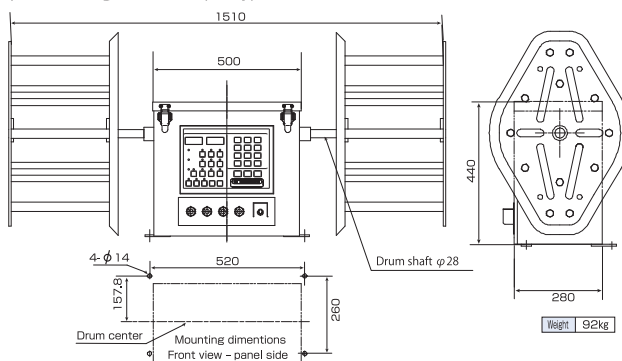

The display of the new control panel that features icons allows you to work instantly and instinctively and, as a result, you can work much more efficiently.
