From Hakodate to the world ~ aiming to provide an ocean-friendly work environment ~

Towa Denki Seisakusho, Inc.

New

Triaxial Gravity Sensor

Patent Pending in Japan

Processes all types of ship motion, with high speed and precision, in three dimensions. The drum rotation promptly follows the ship motions to keep the tension on the fishing line constant.

- Fishing line coming off the tip roller
- Hooked squids got escaped
- Trouble with fishing line breaking

decrease significantly.

Reputable LCD control panel adopted

Central Control Panel

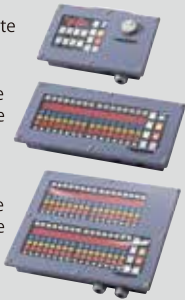

Standard remote control unit

Up/Down/Pause standard remote control unit

16 circuits

Up/Down/Pause standard remote control unit

32 circuits

Performs a variety of jigging patterns!

The variety of jigging patterns are flexible and can be freely set to meet the situation.

Fishfinder Linkage Function
