Dear Valued Distributors,

Notice Regarding the Supply Suspension of Some of Our Products

Due to the Escalating Tensions in the Middle East

Thank you very much for your continued support.

As reported in the media, the recent escalation of tensions in the Middle East has made the supply of raw materials used in our products, including petroleum, resin materials, paint and thinner, nylon-based materials and grease and oil, extremely unstable. Consequently, it is also becoming difficult to ensure a stable supply of our products.

Unfortunately, as a result, we have been forced to temporarily suspend sales of our products containing the aforementioned raw materials. As we are currently unable to predict when the supply of the raw materials will be stable again, we cannot provide information about when sales of our products will resume.

However, we can supply products that do not contain the aforementioned raw materials. Please contact us for more information about our currently available products.

In addition, due to the sharp rise in the price of raw materials and logistics costs, as well as the uncertainty surrounding future prospects, we may need to increase product prices without prior notice. We appreciate your understanding in advance.

We are committed to improving our product supply system by securing alternative sources of the raw materials.

We apologize for the inconvenience and kindly ask for your understanding and cooperation.

Sincerely yours,

Towa Denki Seisakusho, Inc.
